I have to prove my dislike for Hong Dabin through sex?

Can that be said from a normal woman?

I might have accepted out of anger, but

this person is definitely not normal...!

...In the first place,

I even took a leave of absence due to health problems and came here to recuperate,

there's no way that I'll be doing such cheesy things like dating.

Treatment is recommended until signs of improvement are shown.

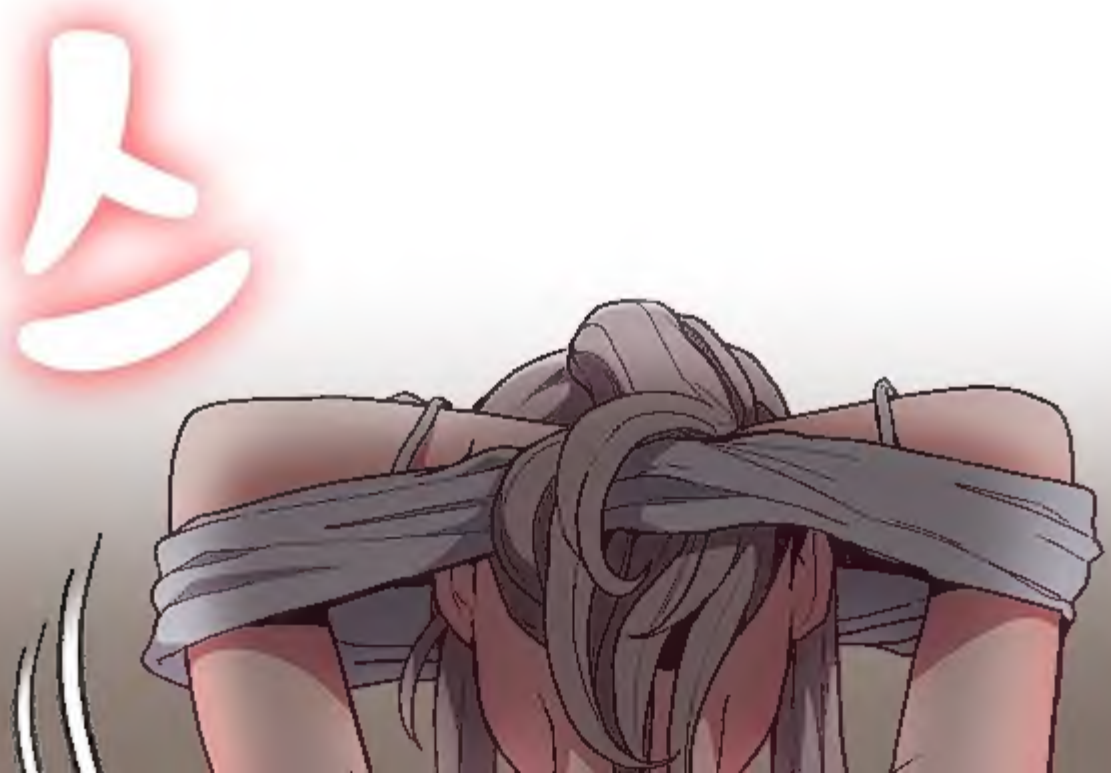
Plus, a runaway girl like Hong Dabin...

How could anyone easily date her knowing her family's situation?

...No. Stop the unnecessary thoughts.



The important thing is not that I want to do it,

but I don't see Hong Dabin as a romantic partner...!
